Front End Developer

Charlotte, NC 28205
Zacharias3690@gmail.com - (512) 587-1596

Searching for smart people and interesting projects in the Austin, Denver, or Los Angeles areas.

WORK EXPERIENCE

Senior Front End Developer
Red Ventures   -   Fort Mill, SC   -   December 2016 to Present

Work with a small team of designers and back end engineers to create a software platform serving internal and external clients. Pair program with coworkers to help them learn front end development. Make guiding decisions on the platform and tools used. Skills used: HTML, SASS, Javascript, Vue, Webpack

Team Lead - Front End Development
Volusion   -   Austin, TX   -   April 2015 to September 2016

Responsibilities
Work in a small team to develop the future product of the company. write clean concise code, sticking to coding standards. Work with product managers and an API team in an agile environment to help plan deadlines and execute within a deadline.

Accomplishments
Became top contributor to the project after only 1 month. After 1 week, I developed and implemented a set of coding standards across the entire project. I was also the first developer to demo the project status to a team of executives, and have done several demos for them since.

Skills Used
SASS, HTML, Javascript, AngularJS

Application Developer
Third Corner   -   Plano, TX   -   June 2014 to April 2015

Responsibilities
Work in small teams to develop business applications with a variety of requirements. Communicate with clients to build a set of requirements and execute a plan to deliver those requirements within a set deadline.

Accomplishments
Known as the person to get things done. I was moved to projects that were behind schedule to get them up to speed. I would also pair program with other developers to help them effectively use their development tools and optimize their productivity.

Skills Used
AngularJS, C# .Net, SQL Server, Karma, Jasmine, Gulp, HTML, CSS, LESS, Bootstrap, Git, TFS, Continuous Integration

Software Developer
Petrocloud   -   May 2013 to June 2014

Develop and maintain device software, manage MySQL databases, and Front and back end web development for cloud based oil automation

Game Advisor
Gamestop - February 2011 to January 2013

Organize and maintain games as well as assist customers with purchases

Temp
Capital Spectrum Inc - August 2010 to January 2013

Package and ship printed materials. Set up and maintain computers on the company network

EDUCATION

B.S. in Computer Science
University of Texas at Dallas   -   Dallas, TX

SKILLS

Java, C#, Javascript, Bootstrap, Python, MySQL, PHP, html, NodeJS, Express, AngularJS, Jquery, CodeIgniter, Unity, Visual Studio, Android API, Facebook API, .Net, SQL Server, LESS
